

Slieve Russell Hotel

Golf & Country Club

Dear Guest

The Slieve Russell Hotel recognises the need for responsible environmental management and is committed to improving energy and water efficiency, reducing and recycling waste and protecting the environment.

We would like to draw your attention to the following ways in which you too can help minimise our impact on the environment:

- ◆ Our accommodation staff will recycle refuse items left in your bedroom. We would ask you to please separate your recyclables and leave them for collection
- ◆ Guests are encouraged to, where possible, use towels more than once. A towel on the rail means I will use it again and a towel on the floor or in the bath means please exchange.
- ◆ 'Do your part, be water smart' e.g. do not run the water whilst brushing your teeth. Fill the basin with water whilst shaving instead of running the tap.
- ◆ Remember to turn off the lights and remove the key card when not in the room, where applicable.
- ◆ Your key card does not store sensitive information. Please return your keys to Reception at check out for recycling purposes.
- ◆ Ensure that your windows are closed when the heating or air conditioning is on where applicable.
- ◆ Please feel free to take home the opened and used shampoo, body wash and body lotion.
- ◆ We provide a used battery collection point in our Gift Shop.
- ◆ Please feel free to browse our brochure stand at Reception for information on local attractions, which are also environmentally conscious.
